Transforming Clinical Practice Initiative

Rural Health Clinic Technical Assistance Webinar

March 1, 2016

Wakina Scott, MPH, PhD
Federal Office of Rural Health Policy
The Transforming Clinical Practice Initiative (TCPI) is a model designed by the Centers for Medicare & Medicaid Services (CMS) to support clinician practices over the next four years in sharing, adapting and further developing their comprehensive quality improvement strategies.

CMS awarded $685 million to 39 national and regional collaborative healthcare transformation networks and supporting organizations
- Provide technical assistance support to help equip more than 140,000 clinicians with tools and support needed to
  - improve quality of care,
  - increase patients’ access to information, and
  - address cost effectiveness.
How is it being implemented?

The initiative has two major components:

- **29 Practice Transformation Networks** will provide technical assistance and peer-level support to assist clinicians in delivering care in a patient-centric and efficient manner.

- **10 Support and Alignment Networks** will focus on such initiatives as creating a collaborative for emergency clinicians to address appropriate utilization of tests and procedures.
Additional Information
