You will need to add a separate entry for each different industry code used. You can add more than one entry for the same code, if you want to use separate entries for each employee, for example. If a single employee does work matching more than one industry code, you may use multiple entries for that person, allocating salary/wages to the appropriate industries.

Enter spending *outside of the states you serve* as separate entries and circle “N” in the In-state(s) column for those items.

You will need to add a separate entry for each different industry code used. You can add more than one entry for the same code if you want to use separate entries for different contracts.

Enter spending *outside of the states you serve* as separate entries and circle “N” in the In-state(s) column for those items.

Step 6 – Other spending

Please add other operational spending for this project. This includes any spending not fitting the categories of personnel/fringe, equipment/supplies, or contract spending. It may include travel, marketing, rent, utilities, overhead, indirect costs, and similar expenses. Consider the industry code *561100 - Office Administrative*, for expenses like indirects and overhead.

You will need to add a separate entry for each different industry code used. You can add more than one entry for the same code if you want to use separate entries for different expenses.
